RE: Coquina Oil Corporation
Yates State Well No. 1
Burton Flats (Strawn)
Burton Flats (Morrow)
Unit K Sec 10, T21S, R27E
Eddy County, New Mexico

Gentlemen:

The above referenced well is dually completed in both the Strawn and Morrow zones. As required by State Rule No. 112-A a packer leakage test is currently due on this completion. The last test was dated June 13, 1979.

Plans are currently underway to abandon the Strawn zone and make a single zone Morrow producer in this wellbore. A State Form C-103 dated 5/19/80 has been submitted for approval of this action. Concurrence has been received from all working interest owners.

Therefore, in anticipation of favorable acceptance by your office of the C-103 recommendation, it is respectfully requested that the packer leakage requirement be waived or cancelled on this well.

Thank you for consideration of this request and if additional information is needed please contact this office.

Yours truly,

COQUINA OIL CORPORATION

Ron Gilbreath
Production Manager
