Re: Pennzoil's Moore Com #1
Section 23, T-22-S, R-26-E
Eddy County, New Mexico

Dear Bill:

The subject well will be shut-in on July 13, 1974 because of the termination of the current gas sales contract period. The well will remain shut-in until a new contract is completed.

We plan to run a bottom hole pressure just prior to returning the well to production, and this pressure will be submitted as the annual shut-in pressure.

Thank you for your attention, I am,

Yours very truly,

J. C. Raney
