(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.) *

On July 17, 1973, verbal notice to plug and abandon this well was given to Mr. R. L. Beekman by Jack D. Semon of this company.

Proposed plugging procedure:

- Plug #1 - 34 sks from 11,832' to 11,732'.
- Plug #2 - 33 sks from 10,122' to 10,022'.
- Plug #3 - 36 sks from 8,350' to 8,250'.
- Plug #4 - 35 sks from 6,500' to 6,400'.
- Plug #5 - 48 sks from 4,815' to 4,715'.
- Plug #6 - 36 sks from 3,031' to 2,931'.

Cement to be 15.4 PPG and 10.3 PPG mud between plugs.

Install regulation marker and clean location.

CONDITIONS OF APPROVAL, IF ANY:		

Instructions

General: This form is designed for submitting proposals to perform certain well operations, and reports of such operations, and reports of such operations, as required by Federal law and Indian lands pursuant to applicable Federal law and regulations, and, if approved or accepted by any State or all lands in such State, pursuant to applicable State law and regulations. Any necessary special instructions concerning the use of this form and the manner of filing the same, including instructions with respect to local, area, or regional procedures and practices, either are shown below or will be found by, or may be obtained from, the appropriate Federal or State office.

Item 4: If there are no applicable State requirements, locations on Federal or Indian land should be so noted in recording a well. Federal requirements. General form State or Federal office for specific instructions.

Item 17: Proposals to abandon a well and subsequent reports of abandonment should include such special information as is required by local Federal or State law. In addition, such proposals and reports should include reasons for the abandonment; data on any fracture or present or potential zone, or other zone, and any other information and fluid contents not sealed off by cement or otherwise; depths (top and bottom) and method of placement of cement plugs; and of other pertinent physical data, to be given in above plugs; amount, size, method of packing of any casing, liner or tubing pulled and the depth to top of any left in the hole; method of closing top of well; and date well was conditioned for final inspection looking to approval of the abandonment.
