

Proposed Dalton H. Cobb - Federal #1

Located

660' FNL & 1980' FWL (Unit C) Section 4

T-20-S, R-29-E

Eddy County, New Mexico

### Development Plan for Surface Use

---

1. Existing Roads: Refer to attached road plat. Turn off paved road onto existing dirt road and travel about 1½ miles. Road passes about 70' Northwest of the proposed well. Approximately 70' of new road ± 12' in width will be built.
2. Location: Due to shallow depth of well a small trailer mounted rotary will be used requiring the clearance of the following from the stake located 660' FNL, 1980' FWL, Section 4, T-20-S, R-29-E, Eddy County, New Mexico.

50'	West
50'	East
50'	South
15'	North
3. Location of tank batteries and flow lines will be located at the wellsite.
4. Water required for the drilling operation will be trucked and accumulated in a water supply tank at the wellsite.
5. Drilling fluids and hole solids will be handled in the reserve pit. Other waste materials will be handled daily as required to maintain a clean location. Final clean up will be in accordance with prudent practices.
