Re: Underwood & Williamson
N. 1 Shell-Federal "A"
1980' FSL & 1980' FEL
Section 1-T20S-R28E
Eddy County, New Mexico

Gentlemen:

As per instructions for submitting an application to drill on shore or off-shore gas, oil or geothermal wells on public domain and acquired lands, D. W. Underwood and J. C. Williamson answer these questions as follow:

1. Existing Roads: Exhibit "B," attached, shows existing roads in solid red lines.
2. Planned Access Roads: Planned access roads are shown on Exhibit "B" as dashed red lines.
3. Location of Well: As shown on above reference.
4. Lateral Roads to Location: None
5. Location of Tank Battery and Flow Lines: If the above well is productive, surface equipment will be set on location site.
6. Location and Types of Water Lines: Water to be hauled.
7. Methods for Handling Waste Deposits: A reserve pit located as per Exhibit "C" will be used for handling all wastes.
8. Location of Camps: None
9. Location of Air Strip: None
