

July 19, 1973

2. Pit volume totalizer.
3. Flow line sensor.
4. Degasser.

Prior to drilling out under the 10-3/4", the BOP's and related control equipment will be pressure tested to rated working pressure by Yellow Jacket Tools and Services, Inc. with a copy of the pressure test report furnished to the USGS.

The well will be drilled in accordance with USGS requirements established in 30 CFR 221.24, 221.36 and 221.37.

If further information is needed to evaluate this request, please contact me at the above address.

Yours very truly,

E. Y. Wilder
Operations Manager
