13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Marathon Oil Co is requesting extension of the TA STATUS of this well. A casing integrity test was conducted 1-10-92 with no leaks being found. TA status was applied for and granted. This well has Morrow potential. Present gas prices will not support the necessary work to exploit the aforesaid potential. It is requested that since the well is not an environmental threat that the TA status be continued, which will allow the Morrow potential to be developed when product prices will justify said work.
