Re: Merland
#1-J, 24-22-26
Eddy County, New Mexico

Gentlemen:

To date this office has not received the Subsurface Pressure Test on the subject well.

Commission Rule 302, provides in part that "the operator shall make a subsurface pressure test on the discovery well of any new pool hereafter discovered and shall report the results thereof to the Commission within thirty (30) days after the completion of such discovery well. The results of this test to be filed in triplicate with this office on Commission Form C-124.

If you have any questions concerning this matter please feel free to call upon me.

Sincerely yours,

OIL CONSERVATION COMMISSION

W. A. Gressett
Supervisor, District II
