Eddy County, NM

Gentlemen:

We are returning the enclosed Form C-103 on the subject well for corrections and additional information.

According to our records the 8 5/8" casing was circulated to the surface and the well is located in the Potash Area and a solid cement plug is required through the Salt Section.

Also, we have no record of the perfs at 11,140-82 or the three CIBP as shown on the sketch. Please submit all information necessary to bring our records up to date.

If you have any questions concerning this matter, please feel free to contact me.

Sincerely,

A handwritten signature in cursive script, reading "W. A. Gressett".
