Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

REPORT OF OPERATIONS:

February 19-March 5, 1981 - Set cement retainer at 10,960' & squeezed perforations 10,966'-11,016' with 150 sacks of cement in an attempt to squeeze excessive water production.
March 1981-July 1981 - SI to build pressure. Each two weeks attempted to blow well to unload water and start compressor.
July 22, 1981 - Ran Pump in tracer survey to determine if water production was channeling behind pipe.
August - September 1981 - SI to build pressure. Each two weeks attempted to blow well to unload water and start compressor. Swabbed well with swab unit during September to unload well.
Current
October 14, 1981 - Swabbing well in final attempt to obtain sufficient volume to restart compressor.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
