17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Report of Operations for January and February

We are still attempting to unload the well by blowing the well down and using soap sticks. The well was swabbed for the final time in an attempt to put back on production. This has proven to be unsuccessful. Plans are now being made to transfer operations of the well to the other Working Interest Owner so that they can test additional intervals in the Strawn formation.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
