PACKER-SETTING AFFIDAVIT
(Dual Completions)

O. C. C.
ARTERIA, OFFICE

STATE OF TEXAS)
County of MIDLAND) ss

Alvin Garrison, being first duly sworn according to law, upon his oath deposes and says:

That he is of lawful age and has full knowledge of the facts herein below set out.

That he is employed by Perry R. Bass in the capacity of Production Foreman and as such is its authorized agent.

That on August 23., 1974, he personally supervised the setting of a Baker Model "DB" packer in Perry R. Bass's
(Make and Type of Packer) (Operator)

Bass State Communitized Well No. 1, located in Unit
(lease)
Letter E, Section 15, Township 21, Range 27, NMPM,
Eddy County, New Mexico.

That said packer was set at a subsurface depth of 11,100 feet, said depth measurement having been furnished by Schlumberger.

That the purpose of setting this packer was to effect a seal in the annular space between the two strings of pipe where the packer was set so as to prevent the commingling, within the well-bore, of fluids produced from a stratum below the packer with fluids produced from a stratum above the packer. That this packer was properly set and that it did, when set, effectively and absolutely seal off the annular space between the two strings of pipe where it was set in such manner as that it prevented any movement of fluids across the packer.

Perry R. Bass
(Company)

Alvin Garrison
(its Agent)
