13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

Asher Oil requests that the Western Reserve Fed #1 remain in "T/A" status for one year. We are currently evaluating additional producing zones in this well to see if there is any zone of economic value. There is currently drilling activity in this area which should be completed within the year. The information we gain from these new wells we help in our evaluation of our well.
