Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

We Request that the T/A status of this well remain in effect. We have analyzed the logs of this well against logs of other wells in this area in the hope of recompleting this well. At the present time there are a few limited possibilities but we would like additional time, because of the current drilling activity in this area, to evaluate this well against some of the newer wells being drilled.

This approval of temporary abandonment expires 12/1/97

I hereby certify that the foregoing is true and correct
