E. Burton Flat Strawn Pool

Gentlemen:

Reference is made to your notice of October 1, 1980 stating that a multi point back pressure test is due for the above captioned well.

Please be advised that we plan to perforate the Strawn in some additional zones. This work should be completed this week at which time we plan to 4-point test the well. Your office will receive copies of the test as soon as they are available.

If the above does not meet with your approval, please advise.

Thank you.

Sincerely,

Tom Myers  
Production Engineer
