Eddy County, N. M.

Gentlemen:

Form C-101 Application for Permit to Drill the subject well was approved on July 11, 1974; and to date, no further reports have been submitted.

The scout report shows the well was spudded on 7-26-74 and plugged and abandoned at a TD of 10,030'. Requests for the delinquent reports have been made on the telephone at least twice and still no response.

Commission Rule 1103 B.(1). as follows:

"Report of Commencement of Drilling Operations
Within ten days following the commencement of drilling operations, the operator of the well shall file a report thereof on Form C-103 in triplicate. Such report shall indicate the hour and the date the well was spudded. Further, a report of casing and cement test shall be filed within ten days following the setting of each string of casing. Said report to be filed in triplicate on C-103 and shall present a detailed description of the test method employed, and the results obtained by such test, and any other pertinent information required by Rule 107. The report shall also indicate the top of the cement and the means by which such top was determined."
