PLUG AND ABANDONMENT ☐

17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

A daily drilling report containing all information relating to remedial work performed on the Allied "B" Comm. No. 1 is attached.

In brief summary it says that the overshot assembly and profile on the WC packer at 10,670' was faulty and leaked. Set new Otis Perma-latch packer at 10,662' on top of original WC packer. Ran overshot with on and off tool with 2" profile. Reset Otis hydraulic packer at 6336' instead of original set at 6380'. Returned well to production.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
