Gentlemen:

Attached for your review and processing are six (6) copies of Form C-104 concerning the designation of transporter for casing-head gas for the above captioned well operated by Texas Oil & Gas Corp. It is respectfully requested that the allowable for this well be reinstated effective on the date of gas connection anticipated to be July 3, 1975. The well's allowable had previously been cancelled on May 1, 1975, due to the lack of a gas pipeline connection.

Yours very truly,

G. L. Murphy
District Production Manager
