

DEVELOPMENT PLAN FOR YATES CHEROKEE #1 WELL
SECTION 25, T21S, R24E
EDDY COUNTY, NEW MEXICO

1. Existing roads in the area consist of a dirt road which leads off of Highway 285 approximately 10 miles north of Carlsbad and proceeds southwest to a point approximately 300' of the proposed location.
2. The only necessary access road will be 300' of grading over gently sloping ground.
3. The well location survey plat is enclosed and was prepared by Herschel L. Jones, Lovington, New Mexico, a registered Professional Engineer and/or Land Surveyor.
4. NA
5. Tank batteries and flow lines will be placed at the well location if necessary.
6. Water for drilling will be obtained from Mrs. Patsy Shafer's well located in Section 23, T21S, R24E.
7. Sacks and other combustibles will be disposed of in the burn pit. Other trash and waste will be buried in the mud pits upon well completion.
8. No camp is planned.
9. NA
10. The accompanying layout plan shows rig location, mud pit, burn pit. Mud tanks will not be used.
11. Pits will all be filled, ground will be leveled and re-seeded according to U. S. G. S. Specifications
12. Access road will be leveled and re-seeded.
13. Mud program will be submitted by Buckeye, Inc., Midland, Texas
14. Blowout preventer will be used.
