Memo

From
D. S. NUTTER
CHIEF ENGINEER

To Bill Kressett

In your absence (also
Leland's) I gave Mrs Grace
OK to set 310 feet of surf
csq on Livingstone Ridge
No 1-4 (1980 FSL & 990 FWL 36-
21-30 Eddy Co) This is the
same surf csq prog as Living-
stone Ridge No 1. Also w/
the understanding that this
does not change our overall
policy of requiring about 400'
surf csq in this general
area.
