Rachelle Montgomery,

We have received your sundry notice on the dually completed Toothman Gas Com #1 Ut. L-25-21-27, advising of the status of the well.

Even though the Morrow zone is currently shut in, a packer leakage test must still be run to show segregation between the two zones.

This test should be run as soon as possible and this office notified in time to witness the test, twenty four (24) hours in advance if at all possible.

Future reports for this well should be submitted on State forms rather than Federal as this is a Fee well.

If you have any questions on this matter please feel free to contact this office.

Sincerely,

A handwritten signature in cursive script, appearing to read "Mike Williams".

Mike Williams
Supervisor, Dist II
