PULL OR ALTER CASING ☐	OTHER <u>Temp. Abandon Wolfcamp -Open</u> ☒	CASING TEST AND CEMENT JOBS ☐	OTHER ☐
MORROW			

17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Well is presently completed in Wolfcamp perforations 8880-8908' as a shut-in gas well (Waiting on a low pressure gas pipeline connection), and Morrow perforations 11250-11258' are blanked off in packer at 11159'. We have now negotiated a high-pressure contract for the Morrow gas. We propose to load the Wolfcamp completion w/KCL water, pull tubing and retrieve bridge plug at 9024', latch tubing into on-off tool at 11159' and complete the Morrow thru tubing, temporarily abandon the Wolfcamp by isolation in tubing-casing annulus.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
