2-24-78
We have pulled the straight thru tube in the upper packer and installed a combination blanking plug and x-over tube which blanks off the depleted Morrow zone and opens up the Wolfcamp into the tubing. This well is once again a single completion in the Wolfcamp perforations 8880-8908' and the Morrow is again temporarily abandoned.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
