17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Under the provisions of Case No. 6109, Order No. R-5615, it is proposed to commingle future production from the Burton Flats Morrow pay at 11054-11258 KB with the North Burton Flats Wolfcamp pay 8880-8908 KB. In July 1978, Wolfcamp production was stopped in order to open up new Morrow pay. Morrow production is now marginal and in the interest of conservation it is desirable to commingle with the remaining Wolfcamp reserves for maximum recovery of hydrocarbons in place. An allocation formula is submitted based on remaining reserves in each horizon.

| | |
|-------------------------------------|-----------|
| Burton Flats Morrow - Gas 53% | Oil - 3% |
| No. Burton Flats Wolfcamp - Gas 47% | Oil - 97% |

Will standing valve in packer at 11027 and open sliding sleeve.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
