17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Our recent completion in Wolfcamp perforations 9546-59 depleted on pipeline very rapidly and we were not able to get a four-point potential test. It is now proposed to open additional Wolfcamp perforations and stimulate as needed for production. Will perforate selectively at 8784-8904 and 9073-87.
