Re: Sundry and Completion report for NM-13624 Avalon Federal #1

Dear Sirs:

Enclosed find 4 copies of our completion report and 5 copies of the sundry notice for the recompletion of the Avalon Federal #1 well. Our "notice of intent" sundry proposed the dual completion of this well with the Morrow producing zone. The Morrow production is now isolated behind a packer and we intend to produce the Atoka zone for 90 days before considering a dual completion for this well.

will need to write letter Jan 1, 1994
Your speedy attention to the approval of these reports would be very helpful.

If you have any questions about this submittal please call me at the phone number listed below.

Sincerely yours
