Re: Bledsoe Petro Corporation  
Lone Tree #1  
Section 13-21S-21E  
Eddy County, New Mexico

Dear Mr. Moore:

Per our telephone conversation of April 16, 1991 enclosed please find New Mexico State Form C-103 which reflects plugs currently in the captioned well as shown in the previous operator (Monsanto) well files.

Also attached are well bore schematics showing the present configuration and the configuration which we propose to permanently plug the lower portion of the well prior to testing the Delaware sand at 2930' - 2980'.

Sincerely,

Thomas R. Conroy  
Petroleum Engineer
