

10. PLANS FOR RESTORATION OF SURFACE:

- (a) After drilling & completion operations, all equipment and material not needed for operations will be removed.
 - (b) Pits will be fenced until dry, then filled or levelled, and location will be cleaned.
 - (c) After abandonment, location will be cleaned and any special rehabilitation requirements of the surface management agency will be complied with and accomplished as expeditiously as possible.
-

11. OTHER INFORMATION:

- (a) Topography is a knobby projection off of ridge with steep drop offs to the east.
 - (b) Soil is rocky with little sandy loam (wind blown).
 - (c) Vegetation is very sparse & consists of lechuguilla, broom weed, algareda cactus, cedar-brush, greasewood & saccareta.
 - (d) No rivers, streams, or ponds.
 - (e) Nearest occupied dwelling is ranch-house 1.2 miles east of location.
 - (f) Land used for grazing some cattle.
 - (g) Wellsite and access road is on federal surface.
-

12. LESSEE'S OR OPERATOR'S REPRESENTATIVE: Eddie Mahfood or Leon Bergstrom, 207 South Fourth Street, Artesia, NM. 746-3558.

13. CERTIFICATION:

I hereby certify that I, or persons under my direct supervision, have inspected the proposed drillsite and access route; that I am familiar with the conditions which presently exist; that the statements made in this plan are, to the best of my knowledge, true and correct; and, that the work associated with the operations proposed herein will be performed by Yates Petroleum Corporation and its contractors and subcontractors in conformity with this plan and the terms and conditions under which it is approved.
