Re: Permit to Flare Eddy "GE" State Com #1  
Burton Flat Morrow Unit J, Section  
23-T20S-R27E Eddy County, New Mexico

RECEIVED

SEP 30 1981

O. C. D.  
ARTESIA, OFFICE

New Mexico Oil Conservation Division  
Drawer DD  
Artesia, New Mexico 88210

Attention: Mr. Bill Gressett

Gentlemen:

The subject well is currently producing at a rate of 20 MCFPD with a flowing tubing pressure of 540 psi. In order to evaluate the possibility of producing gas with the assistance of a compressor, we propose to test the well by flaring gas to the atmosphere.

It is felt that three days of testing will allow ample time to determine the most efficient gas producing rate.

Therefore, we request permission to flare approximately 200 MCF in this 72 hour period. This test can be scheduled within two weeks after notification of approval.

Yours very truly,

*R. C. Anderson*  
R. C. ANDERSON

DAH/skj

10-8-81      Approved for a period not to exceed 72 hours.  
Please notify this office as to time and date  
of test.
