(NOTE: Report results of multiple completion on Well
Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

This well is a low volume producer in the Atoka pay, and is offset by Cities Service Little Box #3, Unit B Section 6-21S-22E, an Upper Penn. Completion. We propose to perforate and test the Upper Penn with perforation at 6100-6110' and 6020-6032'. We will stimulate as needed for production and will determine after evaluation if we need downhole commingling. An Upper Penn. completion will prevent drainage and waste, and will protect correlative rights.
