17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.) *

Production in the Permo-Penn is very marginal. We are shutting in the well for Pressure Build-up to establish remaining reserves in the Permo-Penn. We propose to commingle the Permo-Penn with the Atoka and allocate future production on the basis of the remaining reserves in each of the two zones.
