7. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

After testing Morrow Zone 11,373'-11,383' perforated additional Morrow Zone 11,090'-11,100' with 4 JSPF on 4-27-78. Acidized new perfs with 2,000 gallons of 15% Acid. Flowed to clean up. On 5-2-78 fraced with 50,000 Gal. Frac Fluid, 60,000 Lbs. 100 Mesh sand and 55,000 Lbs. 20/40 Sand. Tested to evaluate and decided to move uphole to test the Strawn and Wolfcamp Zones. Propose to blank off the Middle Morrow Zone by setting a cast iron bridge plug at 11,000' and cap with 35' of cement. We will then move up hole to separately test the Strawn 10,508'-10,516' and the Wolfcamp 9254'-9261'. These intervals will be perforated and stimulated in an effort to obtain commercial production.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
