Gentlemen:

By letter of August 21, 1979, we submitted two copies of an Application for Well Status Determination for each separate category (i.e. Sections 102 (c) (1) (C) and 103) pursuant to the Natural Gas Policy Act of 1978, and the rules presented by the Oil Conservation Division of the Energy and Minerals Department, State of New Mexico.

We requested that multiple determinations be made by the Director for this well. Such multiple determinations to be considered by the Commission are two fold: Section (c) (1) (C) New Onshore Reservoir, and Section 103 New Onshore Production Well, under the Natural Gas Policy Act of 1978. All forms, information and sworn statements were submitted separately under this application.

We had previously furnished our purchaser, Natural Gas Pipeline Company of America a copy of the applications, less the required supporting data, and a copy of Form 132 was furnished to the District Office in Artesia.

We inadvertently furnished the wrong working interest owner with a copy of our filing. Consequently, we are now furnishing the proper working interest owners with a copy of the required information.

Yours very truly,

Perry R. Bass
