RE: E. J. Garner #1
API #30-015-2272200
Sec. 26-T21S-R27E
Eddy County, New Mexico

Gentlemen:

In looking through our records of the referenced well, I find no evidence of a recompletion report having been filed when the Morrow formation was abandoned and the well was recompleted to the Wolfcamp formation in November 1983. I am, therefore, enclosing five (5) copies of Form C-105, Well Completion or Recompletion Report and Log, for the referenced well. There was no market for the Wolfcamp gas once it was recompleted, so the well was shut-in from November 1983 until November 2, 1989 when El Paso began taking the gas. The well has been producing continuously since that date.

If you have any questions or need additional information, please contact me at 817/877-7325.

Respectfully yours,

UNION PACIFIC RESOURCES COMPANY
