Re: Annual Shut-In Pressure Test
Federal 34 No. 1 - Undesignated Cisco
Unit N, Section 34, T20S, R26E
Eddy County, New Mexico

Conoco Inc., as operator of the subject well, requests an exception to Rule 402 which requires an annual shut-in pressure test on all gas wells.

This well produces approximately 1118 MCF and 1920 BW per day. Due to the amount of water this well produces, shutting it in would cause the well to load up and would be costly to return it to production.

Yours very truly,

P. R. DeFoe
Production Superintendent
