CONDITIONS OF APPROVAL, IF ANY:

Instructions

General: This form is designed for submitting proposals to perform certain well operations, and reports of such operations when completed, as indicated, on Federal and Indian lands pursuant to applicable Federal law and regulations, and, if approved or accepted by this State, pursuant to applicable State law and regulations. Any necessary special instructions concerning the use of this form and the form or copies of this form are shown below, or may be obtained from the local Federal and/or State office, local area or regional procedures and practices, either are shown below or will be issued by, or may be obtained from, the local Federal and/or State office.

Item 4: If there are no applicable State requirements, locations on Federal or Indian land should be described in general terms only, and not as to a specific local State or Federal office for specific instructions.

Item 17: Proposals to abandon a well and subsequent reports of abandonment should include such special information as is required by local Federal and/or State offices. In addition, such proposals and reports should include reasons for the abandonment, data on any former or present productive zones, or other zones with presently stored fluid contents not sealed off by cement or otherwise, depths (top and bottom) and method of placement of cement plugs (and/or other material placed below, for use and above plugs (amount, size, method of putting of any casing, liner or tubing pulled and the depth to top of any left in the hole), method of closing top of well, and data well site conditioned for final inspection looking to approval of the abandonment.
