

For Section 103(c), New Onshore Production Well

Mark below to indicate the materials reviewed and relevant to the request. Attach accordingly.

In conformance with Office of Management and Budget Guidelines, data of a specific nature such as a Geological Survey form, a directional drilling survey, etc., which has already been submitted to the Supervisor for another purpose, shall not be submitted again as a requirement but may be submitted voluntarily. If such data is not submitted, the applicant shall so indicate below that the data is on file with the Supervisor. (In choosing not to submit the data, the applicant must understand that processing of the application may be delayed several days and perhaps weeks while the Supervisor locates and reproduces the data.)

1. Form FERC 121, Application for Determination of the Maximum Lawful Price Under the Natural Gas Policy Act. X
2. A statement(s) under oath as required by FERC for each application, including answers to certain questions as applicable. X
3. A statement that completed copies of Form FERC 121 have been forwarded to the purchaser(s) and to the colessees and/or the working interest owners. X
4. A statement of certification for each of the supporting documents, except for the conventional Geological Survey agreements and forms already certified. X
5. Form 9-330, Well Completion or Recompletion Report and Log. X
6. A plat locating and identifying the well of interest and the outline of the proration unit. Also, identification and explanation of any other wells within the proration unit. X
7. A copy of the State Spacing Order, or, as applicable, the appropriate reference to a State regulation and/or a Federal unit agreement. - Statewide Rule 104 X
8. For a new well which was spudded on or after February 19, 1977, and drilled as an additional well into an existing proration unit, a copy of the record developed prior to the commencement of drilling (as reasonably possible to do so), with geological and engineering support data included, sufficient to support a finding that the new well is necessary. Also, support data acquired after commencement of drilling, as appropriate. N/A
9. Other: _____
