Eddy County, New Mexico

Gentlemen:

On behalf of our client, David Fasken, we are submitting an application to drill the subject well. A list of enclosed exhibits is attached to this letter.

A supplemental plat on Form C-102 shows the well site to be more than the lateral requirement of 300' from the 3177' contour above sea level.

In the proximity to Lake Avalon, the Bureau of Reclamation also has jurisdiction; therefore, if you require any additional exhibits or data to expedite approval of this drill site, please call me at 1-915-683-1893.

Yours truly,

HENRY ENGINEERING

Robert H. Angevine
