Section 11, T21S, R22E
(Developmental Well)

MAY 21 1980

U.S. GEOLOGICAL SURVEY
ARTESIA, NEW MEXICO

This plan is submitted with Form 9-331C, Application for Permit to Drill, covering the above described well. The purpose of this plan is to describe the location, the construction activities and operations plan, the surface disturbance involved, and the rehabilitation of the surface after completion of the well so that an appraisal can be made of the environment effected by this well.

1. EXISTING ROADS.

Exhibit A is a portion of a USGS topographic map showing the wells and roads in the vicinity of the proposed location. The proposed wellsite is located approximately 32 miles SW of Artesia, New Mexico and the access route to the location is indicated in red and green on Exhibit A.

DIRECTIONS:

Go for approximately 23 miles south of Artesia on U.S. 285, turn west on State 137 (or Marathon Plant Road), go west and southwest approximately 17½ miles on black-top (or 4 miles west of Marathon Plant). Turn north on caliche lease road for 2 miles to Tatman Ranch Road, cross cattleguard and proceed north 1/2 mile to corrals. Continue west on caliche road for approximately 2 miles. Proposed location will be on north side of road and west of pipeline.

2. PLANNED ACCESS ROAD.

A. There is no proposed new access road.

3. LOCATION OF EXISTING WELLS.

A. There is drilling activity within a one-mile radius of the wellsite.

4. LOCATION OF EXISTING AND/OR PROPOSED FACILITIES.

A. There are no production facilities on this lease at the present time. See Exhibit A.

B. In the event that the well is productive, the necessary production facilities will be installed on the drilling pad. If the well is productive oil, a gas or diesel self-contained unit will be used to provide the necessary power. No power will be required if the well is productive of gas.

5. LOCATION AND TYPE OF WATER SUPPLY.

A. It is planned to drill the proposed well with a fresh water system. The water will be obtained from commercial sources and will be piped to location.
