Re: Properly Abandoned Wells

Dear Ray;

July 16, 1996 I sent you a letter requesting a plan to begin bringing shut in wells into compliance with Rule 201 and as of this date there has been no response from you regarding this matter. Failure to respond will result in this office requesting our legal department in Santa Fe to schedule a hearing that you may appear and show why these wells should not be plugged.

Following is a list of wells with the last production or injection we have on record.
