

8. Ancillary Facilities

- A. None needed.

9. Wellsite Layout

- A. The location and dimensions of the well pad, mud pits, reserve pit and location of major rig components is shown on the wellsite layout sketch.
- B. Only minor levelling of the wellsite will be required. No significant cuts and fills will be necessary.
- C. The reserve pit will be plastic lined.

10. Plans for Restoration of the Surface

- A. After completion of drilling and/or completion operations, all equipment and other materials not needed for operations will be removed. Pits will be filled and location cleaned of all trash and junk to leave the wellsite in an aesthetically pleasing condition as possible.
- B. Any unguarded pits containing fluids will be fenced until they are filled.
- C. After abandonment of the well, surface restoration will be in accordance with the rehabilitation and/or revegetation requirements of the BIM. This will be accomplished as expeditiously as possible. Barring unforeseen problems, all pits will be filled and levelled within 90 days after abandonment.

11. Other Information

- A. Topography: Areal terrain is distinguished by a generally flat and featureless plain which is coextensive with Burton Flats. Drainage is toward the southeast in the immediate vicinity.
- B. Soil: Sandy clay loams with gyp inclusions.
- C. Flora and Fauna: The vegetative cover is generally sparse consisting of mesquite, yucca, shinnery oak, sandsage and perennial native range grasses. Wildlife in the area is also sparse consisting of coyotes, rabbits, rodents, reptiles, dove and quail.

11. Other Information - Cont.

- D. Ponds and Streams: There are no rivers, streams, lakes or ponds in the area.
- E. Residences and Other Structures: The nearest occupied dwelling is the Angell Ranch Headquarter about two (2) miles SSW.
- F. Archaeological, Historical and Cultural Sites: None observed in the area. Dr. J. Loring Haskell has been engaged to make an Archaeological Reconnaissance of the work area and access road.
- G. Land Use: Cattle ranching and hunting in season.
- H. Surface Ownership: The wellsite and access road are all on public land administered by the Bureau of Land Management.

12. Operators Representatives:

The field representatives responsible for assuring compliance with the approved surface use and operation's plan are as follows:

J. L. Bussell, Production Foreman
P.O. Box 69
Hobbs, New Mexico 88240

Office Phone: 505/393-2174
Home Phone: 505/396-4719

E. Y. Wilder, Region Operations Manager
P.O. Box 1919
Midland, Texas 79702

Office Phone: 915/685-5600
Home Phone: 915/694-8626

13. Certification

I hereby certify that I, or persons under my direct supervision, have inspected the proposed drill site and access route; that I am familiar with the conditions which presently exist; that the statements made in this plan are, to the best of my knowledge, true and correct; and, that the work associated with the operations proposed herein will be performed by Cities Service Company and its contractors and sub-contractors in conformity with this plan and the terms and conditions under which it is approved.

Date

10/30/80

E. H. Hilder
Region Operations Manager
