If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Bass Enterprises requests approval of TA status for this well. A casing integrity test was run on October 7, 1993 (witnessed by Cathy Queen).

Bass is evaluating re-completion possibilities in the Bone Spring formation. Work is expected to start in late 1998 depending on results of geological mapping and studies being conducted in this area.

Based on the successful casing integrity test (no leak off), we request the TA status be granted for 12 months.
