Re: Lancaster Spring Com #2  
Unit K, Sec. 9-T22S-R26E  
Eddy County, NM

Gentlemen:

We are returning the enclosed Form C-103 on the subject well for additional information.

Would you please show the setting depth of the two stage tool, the TOC by temperature survey, (including a copy of the temperature survey), and describe the method used to circulate cement (one inched in stages). It should also be mentioned about installing and pressure testing the BOP before drilling was resumed.

If you have any further questions concerning this matter please feel free to call me.

Sincerely yours,

Mike Williams  
Oil & Gas Inspector
