Gentlemen:

In compliance with the NTL-6 requirement, the following information is provided as an attachment to the Form 9-331C, "Application for Permit to Drill, Deepen or Plug Back."

1. The surface formation is Quaternary alluvium with caliche.
2. Formation tops are as shown on the "Drilling Prognosis."
3. Depth to the oil pay section is shown on the "Drilling Prognosis."
4. Casing Program: Attachment II.
5. Information on the "Blowout Preventor Hookup" (as shown on the Schematic) with pertinent information on testing procedure and testing frequency.
6. Characteristics of circulating medium as shown on the "Drilling Prognosis."
7. None required except those supplied by the drilling contractor including Kelly cock and stabbing valve.
8. Testing and logging as shown on the "Drilling Prognosis."
