

MULTI-POINT SURFACE USE AND OPERATIONS PLAN
HNG OIL COMPANY

Golden Lane Federal 1 #1
Sec. 1, T-21-5, R-28-E
Eddy County, New Mexico
New Mexico Lease 26880

OIL & GAS
U.S. GEOLOGICAL SURVEY
ROSWEEL, NEW MEXICO

This plan is submitted with the Application for Permit to Drill the above described well. The purpose of the plan is to describe the location of the proposed well, the proposed construction activities and operations, the magnitude of necessary surface disturbance involved and the procedures to be followed in rehabilitating the surface after completion of the operation so that a complete appraisal can be made of the environmental effects associated with the operation:

1. EXISTING ROADS:

- A. Exhibit "A" depicts the location of the proposed well as staked. As noticed, the well's location is approximately 1 mile south of US ~~NM~~ 62-180 and 1.5 miles west of NM 37.
- B. Portions of the existing lease road will have minor repairs to upgrade the road. Repairs will consists of replacing the eroded caliche surface with a new caliche surface 6 inched deep, and 20 feet wide, watered and compacted.

2. PLANNED ACCESS ROADS:

- A. Length and Width: Initial new road required will be 20 feet wide and approximately 2800 feet long to the south. This new road is labeled and color coded on Exhibit "B". The center line of the proposed new road from the beginning to the well has been staked and flagged with stakes being visible from any one to the next.
- B. Surfacing Material: Six inches of caliche, water compacted, and graded.
- C. Maximum Grade: 3 Percent
- D. Turnouts: None required
- E. Drainage Design: The new road will have a drop of 6 inches from the center line on each side.
