TITLE

U.S. GEOLOGICAL SURVEY ROSWELL, NEW MEXICO

Instructions

General: This form is designed for submitting proposals to perform certain well operations, and reports of such operations when completed, as indicated, on Federal and Indian lands pursuant to applicable Federal law and regulations, and, if approved or accepted by any State, on all lands in such State, pursuant to applicable State law and regulations. Any necessary special instructions concerning the use of this form and the number of copies to be submitted, particularly with regard to local, area, or regional procedures and practices, either are shown below or will be issued by, or may be obtained from, the local Federal and/or State office.

Item 4: If there are no applicable State requirements, locations on Federal or Indian land should be described in accordance with Federal requirements. Consult long State or Federal office for specific instructions.

State or Federal office for specific instructions.

Consult in 17: Proposals to abandon a well and subsequent reports of abandonment should include such special information as is required by local Federal 3d/or State office in addition, such proposals and reports should include reasons for the abandonment; data on any former or present productive zones, or other zones with present significant over plugs; amount, size, method of parting of any casing, liner or tubing pulled and the depth to top of any left in the hole; method of closing top of wall; and date well specific and over plugs; amount, size, method of parting of any casing, liner or tubing pulled and the depth to top of any left in the hole; method of closing top of wall; and date well specific and over plugs; amount, size, method of parting top of the abandonment.
