## New Mexico Oil Conservation Division 0-104 Instructions

## IF THIS IS AN AMENDED REPORT. CHECK THE BOX LABLED "AMENDED REPORT" AT THE TOP OF THIS DOCUMENT

Report all gas volumes at 15.025 PSIA at 60°. Report all oil volumes to the nearest whole barrel.

A request for allowable for a newly drilled or deepened well must be accompanied by a tabulation of the deviation tests conducted in accordance with fluie 111.

All sections of this form must be filled out for allowable requests on new and recompleted wells.

Fill out only eactions i, li, lii, IV, and the operator cardications for changes of operator, property name, well number, transporter, or other such changes.

A separate C-104 must be filed for each pool in a multiple completion.

improperty filled out or incomplete forms may be returned to operators unapproved.

- Operator's name and address 1.
- Operator's OGRID number. If you do not have one it will be essigned and filled in by the District office. 2.
- Reason for filing code from the following table:

  NW New Well

  RC Recompletion

  CH Change of Operator

  AO Add oil/condensate transporter

  CO Change oil/condensate transporter

  AG Add ges transporter

  CG Change gas transporter

  RT Request for test allowable (Include volume requested)

  If for any other reason write that reason in this box. 3.

- The API number of this well 4.
- 5. The name of the pool for this completion
- 6. The poet code for this pool
- The preperty code for this completion 7.
- The property name (well name) for this completion A.
- 9. The well number for this completion.
- The surface location of this completion NOTE: If the United States government survey designates a Lot Number for this location use that number in the 'UL or lot no.' box. Otherwise use the OCD unit letter.
- The bottom hole location of this completic 11.
- Lease code from the following table: 12.
  - Federal State

  - Fee Jicarilla Navaio Ute Mountain Ute Other Indian Tribe
- ucing method code from the following table: Flowing Pumping or other artificial lift 13.
- MO/DA/YR that this completion was first connected to a 14.
- 15.
- The permit number from the District approved C-129 for this completion
- MO/DA/YR of the C-129 approval for this completion 16.
- MO/DA/YR of the expiration of C-129 approval for this 17.
- The gas or oil transporter's OGRID number 18.
- Name and address of the transparter of the product 19.
- The number assigned to the POD from which this product will be transported by this transporter. If this is a new well or recombistion and this POD has no number the district office will assign a number and write it here. 20.
- Product code from the following table:
  O Oil
  G Gas 21.

- The ULSTR location of this POD if it is different from the well completion location and a short description of the POD (Example: "Battery A", "Jones CPD",etc.) 22.
- The POD number of the storage from which water is moved from this property. If this is a new well or recommended and this POD has no number the district office will assign a number and write it here. 23.
- The ULSTR location of this POD If it is different from the west completion location and a short description of the POD (Example: "Battery A Water Tank", "Jones CPD Water 24.
- MO/DA/YR drilling commences 25.
- MO/DA/YR this completion was ready to produce 26.
- Total vertical depth of the well 27.
- Plugback vertical depth 28.
- Top and bottom perforation in this completion or case shoe and TD If openhole 29.
- Inside diameter of the well bore 30.
- Outside diameter of the casing and tubing 31.
- Depth of casing and tubing. If a casing liner show top and 32.
- Number of sacks of cement used per casing string 33.

The following test data is for an oil well it must be from a test conducted only after the total volume of load oil is recovered.

- MO/DA/YR that new oil was first produced. 34.
- MO/DA/YR that gas was first produced into a pipeline 35.
- MO/DA/YR that the following test was completed 36.
- Length in hours of the test 37.
- Flowing tubing pressure oil wells Shut-in tubing pressure gas wells 38.
- 39. Flowing casing pressure - oil wells Shut-in casing pressure - gas wells
- Diameter of the choice uses in the test/ 40.
- Barrels of oil produced during the test 41.
- Barrels of water produced during the-test 42
- MCF of ass produced during the test 43.
- Gas well calculated absolute open flow in MCF/D 44.
- The method used to test the well: 45.

  - Flowing Pumping Sweepin
  - 5 Swapping If other method please write it in.
- The signature, printed name, and title-of-the-person authorized to make this report, the date this report was signed, and the telephone number to-call-for question about this report 46.
- The previous operator's name, the signs and title of the previous-operate authorized to verify that the previous operates this completion, and the-designed by that person 47.
