New Mexico On Conservation Division C. 104 Instructions THIS IS AN AMENDED REPORT. C' 'K THE BOX LABELED AMENDED REPOR THE TOP OF THIS DOCUMENT Report all gas volume at 15.025 PSIA at 60°. Report all oil volumes to the nearest whole barrel. A request for allowable for a newly drilled or deepened well must be accompanied by a tabulation of the deviation tests conducted in accordance with Rule 111 All sections of this form must be filled out for allowable requests on new and recompleted wells. Fill out only sections I, II, III, IV, and the operator certifications for changes of operator, property name, well number, transporter, or other such A separate C-104 must be filed for each pool in a multiple completion. Improperly filled out or incomplete form may be returned to operators unapproved. Operator's name and address Operator's OGRID number. If you do not have one it will be assigned and filled in by the District office. Reasons for filing code from the following table: NW New Well Recompletion CH Change of Operator Add oil/condensate transporter CO Change oil/condensate transporter AG Add gas transporter CG Change gas transporter CG Change gas transporter RT Request for test allowable (Include volume requested) If for any other reason write that reason in this box. The API number of this well The name of the pool for this completion 4. 5. 6. 7. 8. 9. The name of the pool for this completion The pool code for this pool The property code for this completion 7. The property code for this completion 8. The property name (well name) for this completion 9. The well number for this completion 10. The surface location of this completion NOTE: If the United State government survey designates a Lot Number for this location use that number in the 'UL or lot no.' box. Otherwise use the OCD unit letter. 11. The bottom hole location of this completion 12. Lease code from the following table: Lease code from the following table: Federal S P State Fee Jicarilla Navajo Ute Mountain Ute U Other Indian Tribe 13. The producing method code from the following table: Flowing P Pumping or other artificial lift MO/DA/YR that the completion was first connected to a gas transporter The permit number from the District approved C-129 for this completion MO/DA/YR of the C-129 approval for this completion MO/DA/YR of the expiration of C-129 approval for the completion The gas or oil transporter's OGRID number 14. 15. 16. 17. 18. 19. Name and address of the transporter of the product The number assigned to the POD from which this product will be transported by this transporter. If this is a new well or recompletion and this POD has no number the district office will assign a number and write it here. Product code from the following table: 0 Oil Gas The ULSTR location of this POD if it is different from the well completion location and a short description of the POD (Example: "Battery "Jones CPD" etc.) The POD number of the storage from which water is moved from this property. If this is a new well or recompletion and this POD has no been the district of the will engine a number and write it have A", "Jones CPD" etc.) 2. The POD number of the storage from which water is moved from this property. If this is a new well or recompletion and this POD has no number the district office will assign a number and write it here. 24. The ULSTR location of this POD if it is different from the well completion location and a short description of the POD (Example: "Battery A Water Tank", "Jones CPD Water Tank", etc.) 25. MO/DA/YR drilling commenced 26. MO/DA/YR drilling commenced 27. Total vertical depth of the well 28. Plugback vertical depth of the well 29. Top and bottom perforation in this completion or casing shoe and TD if openhole 30. Write in 'DHC' if this completion is downhole commingled with another completion or 'MC' if there is more than one non-commingled completion in this well bore. 31. Inside diameter of the well bore 32. Outside diameter of the casing and tubing 33. Depth of casing and tubing. If a casing liner, show top and bottom. 34. Number of sacks of cement used per casing string 35. MO/DA/YR that new oil was first produced 36. MO/DA/YR that new oil was first produced into a pipeline 37. MO/DA/YR that gas was first produced into a pipeline 38. MO/DA/YR that the following test was completed 39. Elowing test data is for an oil well it must be from a test conducted only after the total volume of load oil is recovered. 30. MO/DA/YR that the following test was completed 31. Line the diameter of the choke used in the test 32. Elowing use in pressure - oil wells Shut-in casing pressure - gas wells 33. Flowing casing pressure - oil wells Shut-in casing pressure - gas wells 34. Diameter of the choke used in the test 35. Barrels of oil produced during the test 36. Gas well calculated absolute open flow in MCF/D 37. The method used to test the well: 38. Flowing 49. Plumping 40. The method used to test the well: 41. Flowing 42. Diameter of the case of the well in the test 43. Barrels of oil produced to test the well: 44. The method used to test the well:

FP Flowing Pumping Swabbing

If other method please write it in.

47. The signature, printed name, and title of the person authorized to make this report, the date this report was signed, and the telephone number to call for questions about this report
 48. The previous operator's name, the signature, printed name, and title of the previous operator's representative authorized to verify that the

previous operator no longer operates this completion, and the date this report was signed by that person
