Your applications further indicated that two "lay-down" 320-acre, more or less, standard spacing and proration units are to be established by Santa Fe for Indian Basin-Upper Pennsylvanian Associated Pool production in irregular Section 5.

The subject applications have been duly filed under the provisions of ("Division") Rule 104.F and Rule 2(c) of the Division's associated pool rules.

By the authority granted me under the provisions of: (i) Rule 2(c) of the *"Special Rules and Regulations for the Indian Basin-Upper Pennsylvanian Associated Pool/General Rules and Regulations for the Associated Oil and Gas Pools of Northwest New Mexico and Southeast New Mexico"*; and (ii) Division Rule 104.F(2), the three above-described unorthodox oil/gas well locations within the Indian Basin-Upper Pennsylvanian Associated Pool are hereby approved.

Also, Santa Fe is hereby authorized to simultaneously dedicate production attributed to the Indian Basin-Upper Pennsylvanian Associated Pool from its: (i) existing Nagooltee Peak "5" Federal Well No. 2 (API No. 30-015-28074), located at an unorthodox location (approved by Division Order No. R-10138, issued in Case No. 10988 and dated June 22, 1994) 1562 feet from the North line and 1202 feet from the West line (Lot 4/Unit D) of irregular Section 5; and (ii) proposed Nagoolte Peak "5" Federal Com. ✓ Furthermore, Santa Fe is authorized to simultaneously dedicate production attributed to the Indian Basin-Upper Pennsylvanian Associated Pool from its: (i) existing Nagooltee Peak "5" Federal Well No. 1 (API No. 30-015-24713), located at a standard location 1633 feet from the South line and 1636 feet from the East line (Unit J) of irregular Section 5; (ii) proposed Nagooltee Peak "5" Federal Well No. 3; and (iii) proposed Nagooltee Peak "5" Federal Well No. 5: to a standard 320-acre spacing and proration unit comprising the S/2 of irregular Section 5. Santa Fe is permitted to produce the allowable assigned the subject 320-acre spacing and proration unit from all three wells in any proportion.

Finally, Santa Fe will assure that any and all wells in irregular Section 5 producing from the Indian Basin-Upper Pennsylvanian Associated Pool are being operated pursuant to the applicable requirements of Division Order No. R-9922-D.
