Re: Burton Flat Deep Unit  
#37-R-2-21-27  
Und. Delaware Pool

Gentlemen:

Please be aware that Rule 1103 requires that the OCD be notified within 10 days of spudding, on form C-103. Further, each casing string run should be reported seperately, on form C-103 with in 10 days also, as required by Rule 1103.

All plug back are to be reported within 30 days, referenced work stated on December 12, 1984, prior permission is required to plug back a well. The OCD requires a minimum of 35' of cement on CIBP in plug back.

Remedial work is to be reported within 30 days, also as required by this rule.

Please re-submit a C-103 on each casing string run and indicate the pressure test on the 13 3/8" casing, as required by Rule 107.

The approval of the C-104 will be withheld until these requirements are met.

In the future Rule 1103 shall be strictly adhered to.

Yours very truly,

  
Les A. Clements  
Supervisor District II
